NatureROCKS™ Playground Boulders

Add a dynamic and authentic climbing experience with NatureROCKS™ climbing boulders, the most rock-realistic™ climbing boulders on the market today. Their thoughtful design invites participation by a variety of ages and ability levels – from children to experienced adult rock climbers. Climbing is not only fun, but also encourages problem solving while developing strength, balance and endurance. In addition, NatureROCKS™ are a great way to incorporate nature play into your playground or park.

- Anti-Graffiti coating available as an upgrade.

NatureROCKS™ Playground Pieces

NatureROCKS™ play products are ideal park and playground pieces. Children are drawn to their natural look and to the limitless play opportunities they offer. In addition to having fun, children will develop balance, coordination and gross motor skills as they hop, walk, and climb from stone to stump to log. Each piece is artfully designed to resemble real fallen trees with wood grain and bark finishes. They are constructed of durable glass fiber reinforced concrete.

Play Pieces

Log Tunnel Children can walk across, crawl through or climb over the Log Tunnel. It's also a cozy hideout with a window for talking with friends. (4' or 6' long, 34" wide x 30" high, above safety surfacing, 1900 lbs.)

Half Log Balance Beam This wider balance beam is closer to the ground and offers an easier balancing challenge. (4' or 6' long x 24" wide x 12" high, above safety surfacing, 500 lbs.)

Stepping Stones These rock-realistic™ stones add variety and challenge to the play area. Set of 3. (2 Small: 24" wide x 24" long x 8" high, above safety surfacing. 1 Large: 48" wide x 38" long x 18" high, above safety surfacing, 800 lbs.)

Tree Slices Create a winding path for children to hop or step across. Set of 5. (3 18" diameter, 2 14" diameter x 4" high, above safety surfacing, 555 lbs.)

Stepping Turtles Children walk or hop across the backs of turtles to get where they want to go! Set of 5. (18" diameter x 4" high, above safety surfacing, 450 lbs.)

Tree Stumps Coordination is required to walk across stumps of varying heights. Set of 3. (14" diameter x 28", 20" and 12" high, above safety surfacing, 400 lbs.)

Log Bench Children and adults alike will enjoy a place to relax, talk, and watch the action! (4' or 6' long x 24" wide x 12" high, above safety surfacing, 680 lbs.)
