PRESS RELEASE
FOR IMMEDIATE RELEASE

ABCREATIVE OFFERS ID SCULPTURE PRODUCTS

De Soto, KS. June, 2017. ABCreative is excited to announce the addition of a new product line, ID Sculpture.

For 12 years, ID Sculpture has been designing and creating climbing rocks and performance boulders for use on the playground and other outdoor areas. What sets ID Sculpture apart from others is the strong understanding and background in rock climbing that the company leadership has and brings to the design of the product.

“We are proud to offer a product whose quality and features enhance the playground equipment offerings of ABCreative,” said owner Karen Herren.

Rock Climbers & Performance Boulders

The company offers items from a catalog but is experienced in working with landscape architects and others on creating custom-designed work to bring your vision to life.

Climbing rocks are inspired by nature and are designed to evoke a sense of adventure, challenge and achievement. In addition, the company offers a series of playful animal sculptures suitable for ages 2 to 5.

Performance boulders are compliant for use on the playground but offer multigenerational play. They are geared to opportunities for beginning through advanced – they aren’t just for the rock climbing enthusiast, but are great to introduce people to rock climbing.

ID Sculpture takes safety very seriously when it comes to play, offering a line of IPEMA certified products.

“We create unexpected, innovative play spaces that spark the imagination, inspire learning, and expand the frontier of what a playground can be.”
